

# CERS BOND FUND FACTSHEET

## FUND AIM

The CERS Bond Fund ("the Fund") aims to provide protection against changes in the cost of buying a pension (an income for life) at retirement.

## POTENTIALLY SUITABLE FOR

People within seven years of retirement who expect to buy a pension at retirement.

## FUND DESCRIPTION

This fund invests in a blend of indexed bonds, including government and corporates, trying to match the movement in annuity prices. The bond mix is reviewed periodically and can be updated if a mix that better matches annuity prices can be achieved. This fund aims to broadly follow the long-term changes in annuity prices due to interest rates which are just one of the main factors that determine annuity prices. However, there could be times when the fund will not track annuity prices closely and the fund is not guaranteed to track annuity prices. Further information including the CERS investment returns are available at [www.CERS.ie/Funds](http://www.CERS.ie/Funds).
